Community Connections provides a move toward independence while promoting participation in activities that engage each individual's interests. People with disabilities deserve the opportunity to be fully integrated in their communities. MMI is helping lead the way.

People participating in Community Connections achieved 83% of the goals set in their annual plans.

97% of people receive some services in the community.

99% of people participating in MMI programs were satisfied with programs and services.
Youth Services provides an opportunity for growth in both classroom and employment settings. Student participants work to determine their individual goals based on their passions, skills, and abilities. They create self-directed paths to independence and employment. Mentoring students through the phases of career development provides them expanded supports as they become more self-aware and aware of the work world.

Total number of Students: 345

95% of students who attended youth programs showed improvement in work related skills.
Employment Connections guides people on a path to achieving their goals and pursuing their career interests. People are supported by individualized employment teams as they learn skills, build confidence and grow essential networks in their communities.

The number of people we serve in competitive integrated employment increased by 62%.
87% of people placed retained their job after 90 days.

People are spending five times as many hours in the community compared to last year.

The average wage at the time of placement was $11.15 per hour.
